## Summary

- Aspiring Data Analyst with strong knowledge of Python libraries and Java, skilled in data cleaning, analysis, and data visualization. Hands-on experience working with structured datasets and extracting meaningful insights. Familiar with data-driven problem solving and analytical techniques. Actively seeking an internship to apply skills in real-world projects.

## Experience/Internships

<b>Web Development Intern – Cognifyz Technologies</b> <i>Frontend Developer Intern</i>	<b>Mar 2025 – Apr 2025</b> <i>Online</i>
<b>Google GenAI Study Jam – Google Developer Groups</b> <i>AI/Generative AI Intern</i>	<b>2024 – 2025</b> <i>Online</i>

• Developed responsive web applications using HTML, CSS, JavaScript, and React.  
• Worked on frontend design, API integration, and debugging real-world projects.

• Explored generative AI concepts and developed AI solutions using Google's GenAI tools.  
• Gained hands-on experience with PaLM API, MakerSuite, and prompt engineering techniques.

## Projects

<b>Cinemate – Movie Wishlist Tracker</b>   <i>Node.js, HTML, CSS, Firebase, Javascript</i>	<b>June 2025</b>
• Designed and developed a full-stack web application that allows users to search, add, and manage movies in a personalized wishlist. • Integrated Firebase Authentication and a real-time database to securely store user data and synchronize wishlists across multiple sessions.
